NEW QUESTION: 2

Scenario: A network engineer is configuring a virtual network in Azure. The virtual network has two subnets. The first subnet is connected to a virtual machine. The second subnet is connected to a virtual machine. The network engineer wants to ensure that traffic from the first subnet to the second subnet is allowed. The network engineer has configured the following network security rule:

- A. Allow traffic from the first subnet to the second subnet on port 255.
- B. Allow traffic from the first subnet to the second subnet on port 255.
- C. Allow traffic from the first subnet to the second subnet on port 255.
- D. Allow traffic from the first subnet to the second subnet on port 255.
- E. Allow traffic from the first subnet to the second subnet on port 255.

Answer: C,D

Explanation:

The network engineer has configured a network security rule that allows traffic from the first subnet to the second subnet on port 255. The rule is configured as follows:

NEW QUESTION: 3
